Lotmead Monday 6pm

- **Treats and toys.** A particularly delicious tit-bit and toy should be bought along, to help motivate
- **Vaccinations.** Puppies can start at any age but must have started the course of inoculations. If you are not a Drove client, proof is required at the first class. Unfortunately, for the sake of others, we will not be able to welcome you without this proof.
- **Illness & Absence.** Please do not attend if your dog is unwell. In the event of illness or non-attendance, no refunds will be given. Please call us if you are unable to come one week – it is only fair on the others that are waiting for you.
- **Children.** Children under 16 are very welcome (those over 7yrs can be great trainers) but must be accompanied by an adult and supervised at all times as noise and activity can distract the puppies.
- **Refunds.** No refunds on places cancelled within 14 days of the start of the course.
- **Leads and collars.** No choke/check chain, slip leads or half-check collars. A flat or rolled, buckle collar is perfect. A snug harness is even better. Try to avoid extendable/ retractable leads for training sessions, as you will need to have the looped handle of a lead over your wrist for most exercises.
- **Respect.** Give dogs space – particularly around doors. Not all dogs feel comfortable meeting on lead.
- **These classes are designed to teach you and your puppy the basic life skills that will help enhance your relationship with your dog into adulthood. Whilst there may be controlled off-lead play, this is not the main focus of the course.**

I agree to follow the recommendations detailed above and accept the following disclaimer:-

- **Disclaimer.** The Drove Veterinary Hospital, nor any of it's servants or agents, accept responsibility for any injuries incurred to you or your puppy no matter how caused.

You further agreed that The Drove Veterinary Hospital, nor any of it's servants or agents, accept responsibility for any injuries incurred to you or your puppy no matter how caused. Due to the nature of these classes some interaction and activities will be necessary which could cause injury to your puppy. Whilst all precautions will be taken there will inevitably be occasions when a situation cannot be avoided.
